### **Mark Scheme (Standardisation) June 2013**

The one-minute press-up test is unsafe for beginners who have low levels of fitness (1) because it is a high intensity test that can push the participants to their maximum effort/intensity if they were to perform it at the required intensity (1) The one-minute press-up test requires good technique in order to achieve maximum performance (1)

### **Contents**

The sample test demonstrates some of the mechanisms used within an onscreen test As the Award is nested within the Certificate and Extended Certificate, we have adopted the convention of titling external assessments for the smallest award for which they are available across the whole BTEC first suite
